A note from the President:

Happy February. I am seeing a little more daylight these days, and that is encouraging. We are also encouraged to see more people coming to work out and stay healthy. The Community Center is here for you when you are ready. I also want to take a moment and sincerely thank our volunteers at YCC, and we could never do it without them. They are the true definition of what a community center” is.

A short letter from me this month so I can share some great images of our capital project. The request for bids is out, and our project is moving forward. We could not be more excited about this. Please get involved in any way that you can.

In Health,
Leigh
Leigh Berry, President
